**RE:           DECLARATION FOR DOOR COORDINATOR DEVICES ART. 8535 - 8545**

Our door coordinator devices art. 8535 and 8545 are not CE certified according to the EN 1158:2003 since the CE assessment and certification are mandatory only for use on fire and smoke resistant doors (AVCP 1).

They may be assembled on escape route doors without fire and smoke resistance requirements.

Should you have any questions, please do not hesitate to contact me

Yours faithfully

Eng. Raffaele Vezzosi

Quality system manager

Product certification manager
